

# Uncle Jian's Money Muddle

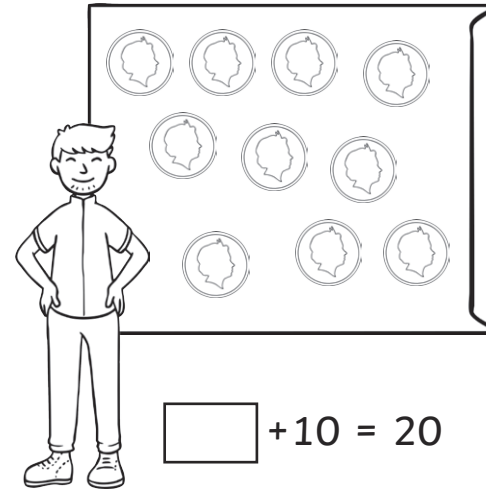

Uncle Jian wants to put 20 coins into every red envelope but he has got himself into a muddle. Can you help him by adding more coins to total 20?

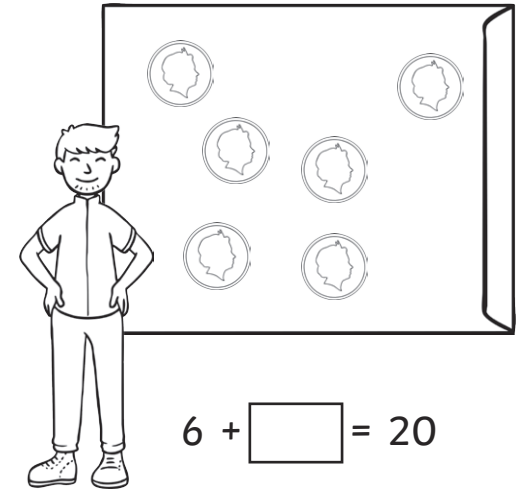

$4 + \square = 20$

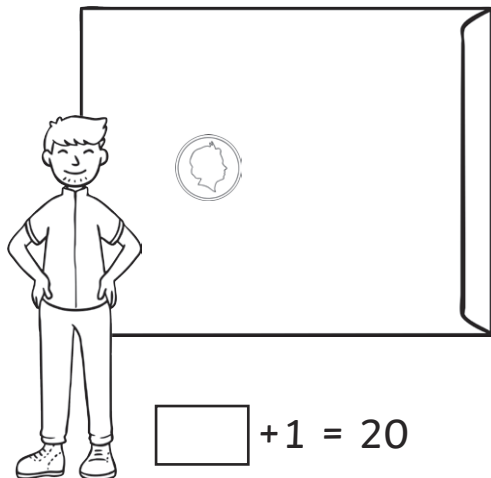

$12 + \square = 20$

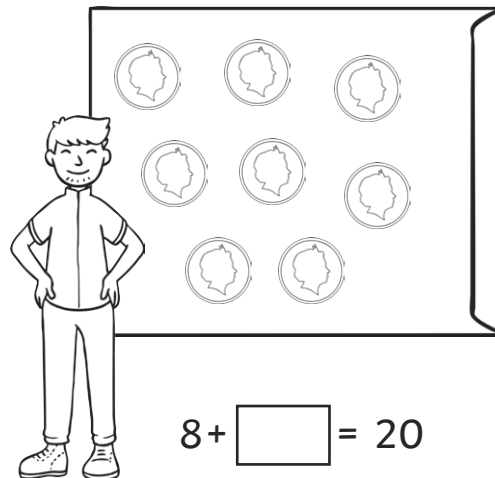

$\square + 10 = 20$

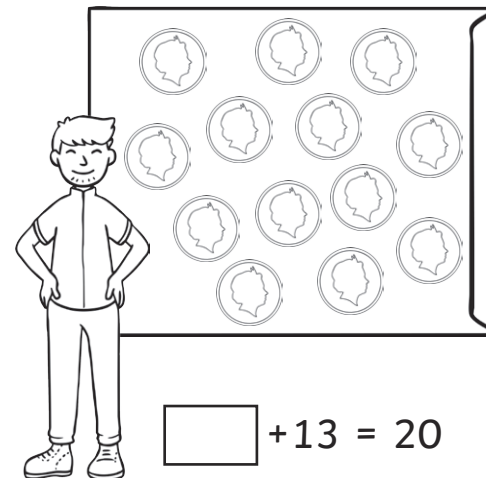

$6 + \square = 20$

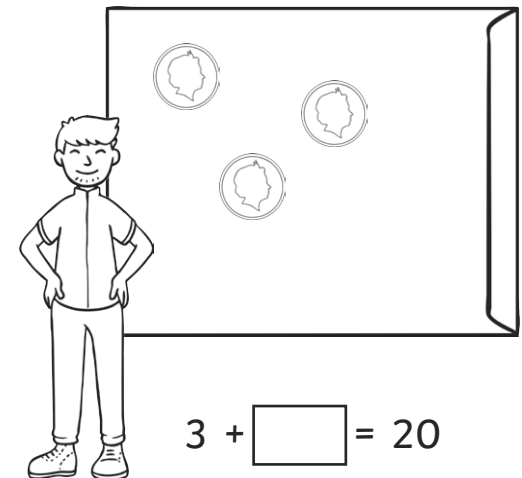

$\square + 1 = 20$

$8 + \square = 20$

$\square + 13 = 20$

$3 + \square = 20$
